

Catch a cold? Swipe the card.

When you use your **take care**® Visa® flex benefits card to pay for qualified purchases, the money is instantly deducted from your flexible benefit account(s). You won't have to reach into your pocket to pay for qualified expenses, file a claim, and then wait to get reimbursed.

And, you'll **save 25% to 40%** on qualified purchases or services when you use your flex account dollars. That's because the money in your flex account is pre-tax dollars. (Your savings are based on the percentage of tax you would have paid on those dollars had you not put them into a flex account.)

Swipe, Save, and Go.

The **take care** flex benefits card is accepted at doctor's offices and select merchants to pay for qualified flex plan expenses. Your spouse or dependents can also get a card.

Using the pre-tax dollars in your flex account saves you 25% to 40% on everyday items.

Co-pays at the doctor and pharmacy ■ contact lenses ■ prescription sunglasses ■ LASIK eye surgery ■ dental sealants ■ braces for teeth ■ quit smoking programs ■ prescribed weight loss programs ■ before and after school child care ■ pre-k ■ nursery school ■ day camp for kids under 13 ■ day care for dependent elders and disabled dependents.

What you should know about the take care® card.

□ Your take care card can only be used for qualified expenses and is only accepted at qualified locations. Qualified locations include doctor's offices, pharmacies, online drug stores, online stores for contacts, dentist offices, optical shops, hospitals, and day care facilities.

□ Make sure to save all receipts for items purchased with your card. Occasionally you may be asked to provide documentation of charges made with your take care card. Please save itemized merchant receipts as well as the take care flex benefits card receipts. This is an IRS requirement.

NOTE: Beginning January 1, 2011, it is required that reimbursement requests for over-the-counter (OTC) drugs and medicines be accompanied by a physician's prescription, in order to be reimbursed from a health flexible spending account (FSA), health reimbursement arrangement (HRA) or a health savings account (HSA). Purchases of OTC drugs and medicines will require another form of payment, other than the take care card. You can electronically submit a claim form along with the doctor's prescription and receipt for the OTC drug or medicine.
